COMMENTS

1. The voting on this last chance proposal should be put in the garbage can in front of the company Negotiators! The Mediation Board should be held accountable by the IBT International legal and a new Mediator assigned to our case. Bad faith bargaining written all over it.
2. The IBT has very serious issues with the Airline Division and may find themselves outside looking in if they keep this up. They have lost their teeth. Just look at how well the pilots are doing, they just got money to extend their contract 24 months. Us The Working Body behind the scenes are being sold like slaves because the union is quite happy with the billions they are about to make with TEAM CARE.
3. I do not trust the Reamsters!!!
4. I feel like the days of the IAM. They got what they wanted and the Teamsters will do the same. Follow the money and you'll see the Teamsters for what they are, a bunch of corrupt, money grabbing (fill in the blank). I don't trust them at all and I'm tired of being a mushroom.
5. Too many ballots lost, & replacements ballots not being counted. It shouldn't have taken this long!
6. In my opinion I feel as if there is only one motivation for the AD to push this vote thru. They want us to be locked into Team Care and Veba. This is something that I'm sure the majority of the membership does not want. Mainly because of the lack of trust that the Union will skim money out of Team Care to shore up a failing pension with Central States. Bottom Line if a customer is not happy with a service that you pay for you fire that service and get a new one.
7. As a SCAL technician, I can say that the Teamsters have lied to me more often than they tell the truth.
8. The IBT really wants this to pass so they can stuff Teamcare down our throats. I wouldn't be surprised at all to find out this vote is rigged.
9. Ballot point is well known and very secure.
